DIGIT RESOURCE MANAGEMENT RECEIVE EXCEPTIONAL SCORES IN ACHILLES UVDB AUDIT

Digit Resource Management was recently audited by Achilles for Category B2 Audit, which we received exceptional scores for; 100% for Health & Safety, Environment and Quality

Achilles Utility Vendors Database (UVDB) Category B2 certification allows us to work for Scottish Water as well as other utility companies.

Digit Resource Management specialises in the recycling of organic and inert matter produced as a result of water treatment and industrial processes. The Company aims to divert material from landfill into a beneficial end use within agriculture, forestry and land restoration and has a number of high profile customers in the water industry.

The audit was carried out over two days and two external auditors from Achilles attended our Middleton depot for the management system evaluation and our Glentagart site for the onsite assessment.

Our scores are as follows:

Management System Evaluation

Health & Safety – 100%
 Environment - 100%
 Quality - 100%

Onsite Assessment

Health & Safety – 100%
 Environment - 100%
 Quality - 100%

David Simpson, Business Development Director said, “My task during the audit is to simply present the auditors with the evidence of hard the work and commitment of the whole team at Digit. It is to everyone’s credit that the auditors ranked our systems and processes so highly.”

**Graeme McDonald Managing Director
 Digit Resource Management Limited**
